

Donor Advisor/Consultant

Tiny will meet with and consult organizations, groups, small businesses, corporations and/or individuals interested in a new model of conscious giving. She will present a new notion of donating in which businesses, individuals and communities will learn how to up-end traditional models of giving and philanthropy. She will help facilitate the process of establishing a revolutionary model of cross class donor collaboration and co-funding to contribute to real long-term solutions to poverty and social injustice in the US and beyond.

THIS WORKSHOP IS OFFERED IN TWO DIFFERENT WAYS

Consciously Investing: Creating a Donor Advisory Board/Collaboration Model.

Tiny will conduct an intensive workshop, which will advise you or your group on how to set-up a donor advisory council or a donor collaboration model that will forever change the traditional model of giving and philanthropy and allow your organization or company to become a conscious donor and affect real change.

Donor Collaboration Workshops

In an intensive two-hour workshop, Tiny and other POOR Magazine poverty scholars will present a new notion of donating in which businesses, individuals, and organizations will learn how to become donor collaborators, re-inventing the idea of giving into one of co-funding.
